

CLAIMS

What is claimed is:

1. An electric cooking appliance comprising: a tank for  
5 holding a cooking liquid; a housing in which said tank is  
mounted, said housing having an upper opening; an upper  
peripheral rim surrounding the upper opening, said upper  
peripheral rim being provided with an indentation; and a  
pouring accessory constructed to be removably mounted in said  
10 indentation to facilitate the pouring of the cooking liquid  
out of said tank.

2.  
3. The appliance of claim 1, wherein said pouring  
accessory has a collection zone opening into said indentation  
15 when said pouring accessory is mounted in said indentation,  
and a pouring zone that opens at the outside of said tank and  
said housing, said pouring zone being in fluid flow  
communication with said collection zone.

20 3. The appliance of claim 2, wherein said pouring zone  
protrudes from said housing when said pouring accessory is  
mounted in said indentation.
